AF85400 BOOGIEMAN™ ALUMINUM HEADS

SKU: AF85400

The world famous "BoogieMan" cylinder heads are in stock and ready to ship. This is the next step in the "Boogie-Man" line. Using an American made casting, CNC machining, and a top-of-the-line seat and guide machine, we have the absolute best cylinder head for a high performance 472 or 500 Cadillac, on the market today. They have 70cc combustion chamber chambers (adds about 1/2 a point of CR over 76cc iron heads), and include 2.25" / 1.8" valves (the same high-grade stainless steel and production methods used for our iron head valves). These heads have been used on numerous applications from daily drivers to full race applications, and they weigh in at 32 Lbs. (vs. the stock iron head's average weight of 62 Lbs.) per head.

[Read More](#)

Price: \$3,600.00

AF85141 FACTORY REPLACEMENT ALUMINUM HEADS

SKU: AF85141

These are the evolved version of the old Bulldog aluminum heads. They have 76cc combustion chambers and include 2.19 / 1.90 stainless valves, and weigh in at 38 Lbs. per head, vs 62 Lbs. per head for your average iron head.

Performance wise, they fall in between our Pro Street and Pro Comp 76cc iron heads. These are a good choice for medium performance levels, where saving weight is more important than bottom end torque, such as lightweight drag cars and gearbox airboats, but you aren't going for maximum power. CNC porting is available, if you need more airflow, but don't have the room for the extra inch of intake height the Boogie Man heads will give you, but they will still not be in the same league for power output.

[Read More](#)

Price: \$3,599.00

AF81420 PRO/COMP HEADS LARGE CHAMBER

SKU: AF81420

PRO/COMP HEADS

Large Chamber Heads. PRO/Comp cylinder heads also feature fully worked ports, radiused guides, 2.19" intake valves, 1.85"exhaust Chromoly spring cups, dual valve springs, lightweight Chromoly retainers, and hardened valve locks. While the standard package is capable of amazing performance, we do offer (and recommend) upgrades to this package for certain applications, such as Inconel valves for turbocharged applications (the stainless valves are not bulletproof under high exhaust temps), titanium valves and retainers for high RPM roller cam setups, etc.

CORE CHARGE INCLUDED

Fall 2021 - Stock levels change frequently, the ETA for new orders for Pro Comp iron heads is roughly 1-2 weeks if not in stock.

[Read More](#)

Price: \$3,090.00

AF81220 SUPER/STREET STEEL HEADS LARGE CHAMBER

SKU: AF81220

SUPER/STREET STEEL HEADS

Large Chamber (120cc) heads. Shot-tumbled, magnafluxed, surfaced, and assembled. Intake and exhaust ports are matched to our premium gaskets. Pushrod walls on the intake side are moved back. Ports are smoothed, blended, and polished (the last 1½"). Bronze guide-liners are installed, and three angle seats are cut and hand lapped. Super/Street heads are assembled using oversize 21-4N stainless valves (2.19 / 1.85 valves), special spring shims, performance valve springs (single w/ damper), Chromoly retainers, and hardened valve locks. Valves are not "back cut" to ensure maximum longevity.

CORE CHARGE INCLUDED

Spring 2021 - the ETA for new orders for iron heads is roughly 2 months.

[Read More](#)

Price: \$2,190.00

AF81210 SUPER/STREET IRON HEADS SMALL CHAMBER

AF85400 BOOGIEMAN™ ALUMINUM HEADS

SKU: AF85400

The world famous "BoogieMan" cylinder heads are in stock and ready to ship. This is the next step in the "Boogie-Man" line. Using an American made casting, CNC machining, and a top-of-the-line seat and guide machine, we have the absolute best cylinder head for a high performance 472 or 500 Cadillac, on the market today. They have 70cc combustion chamber chambers (adds about 1/2 a point of CR over 76cc iron heads), and include 2.25" / 1.8" valves (the same high-grade stainless steel and production methods used for our iron head valves). These heads have been used on numerous applications from daily drivers to full race applications, and they weigh in at 32 Lbs. (vs. the stock iron head's average weight of 62 Lbs.) per head.

[Read More](#)

Price: \$3,600.00

AF85141 FACTORY REPLACEMENT ALUMINUM HEADS

SKU: AF85141

These are the evolved version of the old Bulldog aluminum heads. They have 76cc combustion chambers and include 2.19 / 1.90 stainless valves, and weigh in at 38 Lbs. per head, vs 62 Lbs. per head for your average iron head.

Performance wise, they fall in between our Pro Street and Pro Comp 76cc iron heads. These are a good choice for medium performance levels, where saving weight is more important than bottom end torque, such as lightweight drag cars and gearbox airboats, but you aren't going for maximum power. CNC porting is available, if you need more airflow, but don't have the room for the extra inch of intake height the Boogie Man heads will give you, but they will still not be in the same league for power output.

[Read More](#)

Price: \$3,599.00

AF81420 PRO/COMP HEADS LARGE CHAMBER

SKU: AF81420

PRO/COMP HEADS

Large Chamber Heads. PRO/Comp cylinder heads also feature fully worked ports, radiused guides, 2.19" intake valves, 1.85"exhaust Chromoly spring cups, dual valve springs, lightweight Chromoly retainers, and hardened valve locks. While the standard package is capable of amazing performance, we do offer (and recommend) upgrades to this package for certain applications, such as Inconel valves for turbocharged applications (the stainless valves are not bulletproof under high exhaust temps), titanium valves and retainers for high RPM roller cam setups, etc.

CORE CHARGE INCLUDED

Fall 2021 - Stock levels change frequently, the ETA for new orders for Pro Comp iron heads is roughly 1-2 weeks if not in stock.

AF81220 SUPER/STREET STEEL HEADS LARGE CHAMBER

SKU: AF81220

SUPER/STREET STEEL HEADS

Large Chamber (120cc) heads. Shot-tumbled, magnafluxed, surfaced, and assembled. Intake and exhaust ports are matched to our premium gaskets. Pushrod walls on the intake side are moved back. Ports are smoothed, blended, and polished (the last 1½"). Bronze guide-liners are installed, and three angle seats are cut and hand lapped. Super/Street heads are assembled using oversize 21-4N stainless valves (2.19 / 1.85 valves), special spring shims, performance valve springs (single w/ damper), Chromoly retainers, and hardened valve locks. Valves are not "back cut" to ensure maximum longevity.

CORE CHARGE INCLUDED

Spring 2021 - the ETA for new orders for iron heads is roughly 2 months.
