# OIL PANS

All oil pans are vatted, and checked for defects that would cause them to be unusable, such as excessive rust on sealing surfaces, cracks, holes, and severe warpage. These are 30-40 year old sheet metal parts, and are not perfect. Sometimes we have nice pans. Sometimes we have fairly rough pans for a lower price (needing some elbow grease before use, but not requireing welding, etc). Sometimes we have both, and sometimes we have neither  
Note: '77-up oil pans may require clearancing to clear the stroke of a 500.

# REMAN EXHAUST MANIFOLDS

All reconditioned manifolds are cleaned, magnafluxed, shot peened, magnafluxed again, checked for flat gasket surfaces and machined as needed, and have new studs installed as needed. We do not weld up cracked manifolds for sale. Reconditioned manifolds are guaranteed to not be cracked at the time of delivery. New replacement left side manifolds are available ('68-'76 style, both Eldo and RWD versions). Note that most '68-'72 Eldorados have a unique side-exit passenger's side manifold, but most '73-up Eldorados used the same passenger's side manifold (down-exit) as the other cars. Please check the original manifold style on your car before ordering. Some passenger's side manifolds have an EFE valve, and some don't.
